Welcome to the Viva Education school books catalogue 2019. Viva Education is committed to serving the educational needs of young minds – right from their toddling days to the time when they choose their professional careers. Firmly committed to quality in education, Viva is one of the foremost publishers of educational books in South Asia.

Teaching and learning are not becoming any simpler. Unique and innovative content for both students and teachers, particularly at the school level, is the need of the hour. Keeping in mind the enormous demands placed by the educational system and the fact that students possess diverse skill levels and language abilities, the titles in the Viva Education catalogue are tailored to suit the specific needs of the young minds at every stage of their education.

Our vast range includes books on English Language Teaching (ELT), Hindi, mathematics, the physical sciences, biology, general knowledge, environmental and computer science, and more. To make learning both enjoyable and effective, most titles include hands-on interactive study sessions and activities. The books focusing specifically on the environment and value education bring awareness and gently emphasize the need for harmonious co-existence in society. Our encyclopedias and other resource books, mental ability books, art and craft books, do-it-yourself books, science experiment books, and so on are developed with the aim of knowledge through fun.

We welcome your feedback and suggestions on our books and other products. If you have a book-idea in which you think we may be interested, please get in touch with us. Send us an outline of the proposed project along with a copy of your curriculum vitae.

Our effort is directed towards presenting educational materials across the curriculum – to publish the best of books for both the learners and the learned. We are sure you will find many titles of interest in our catalogue.

Smart Learners: Learn, Understand & Apply

Smart Learners is a complete package for the children studying in Mini KG, Lower KG and Upper KG. The series follows the guidelines provided by various boards such as NCERT and ICSE. The entire learning course for English, Mathematics and Environmental Studies for each level has been divided into eight books to be covered in the whole year. Each book contains a part of every subject to be taught in the designated period of time. The children need to handle only one book at a given time. This is done in order to reduce the bulk of the bag. Apart from these subjects, there is one book each for Art, Craft and additional language such as Hindi. Each set also includes a Smart Kids booklet with basic yoga exercises, values, life skills and sticker activities.

**Key Features**

- Carefully planned and systematically graded
- Simple and easy-to-understand instructions
- Beautiful and colourful illustrations for joyful learning
- Plenty of exercises given in all subjects to maximize learning
- Classroom activities included wherever required
- Integration of values and life skills to enhance knowledge about the surroundings and to create sensitivity and awareness towards the environment
- Additional tips in the form of ‘Notes for the Teacher’

Flash Cards are effective tools to teach the young learners concepts with ease as children learn much faster and retain much better when taught with the help of pictures, games and activities. The books of flash cards have been developed keeping this in mind. The flash cards given in the books have been colourfully designed and appropriately labelled. The ideal way to use these flash cards is to first name the picture on the cards and then ask the children to repeat after you. This will help to improve their vocabulary and enhance their observation and communication skills. The perforated flash cards can be easily detached and kept in a box in separate piles, bound together by rubber bands. They can be reused any number of times to play games given in the books as well as the ones that you develop.

**KEY FEATURES**

- Build vocabulary
- Improve observation skills
- Build confidence
- Improve communication
- Strengthen concepts
- Increase interest in learning
- Learn grouping and classification
- Develop sorting and matching skills
- Strengthen visual discrimination

**Look Inside**

- Ample number of review exercises for recapitulation of all the concepts taught

Gradation of the books done keeping in mind the cognitive level of the children

**Look Inside**

Numbers introduced in a systematic manner through activities
This section has been carefully planned and graded keeping in mind the development of the learner. In LKG, the emphasis is on making learner recognize, read, write, identify and say the letters of the alphabet correctly.

**KEY FEATURES**

- Practice of patterns before beginning writing to develop fine motor skills of the learners
- Teaching of each letter aided by recognition of letter, its formation by finger tracing and its sound
- Careful selection of words that begin from the same phonic sound of the letter for vocabulary building
- Stepwise formation of upper and lower case letters with writing practice and revision exercises to reinforce learning and to improve verbal skills
- Activities for each letter to introduce the usage of letters in an informal yet informative format to make learning fun and permanent
- Review exercises which use various techniques of evaluation like letter-sound association, identification and writing of the beginning sound of the given picture, and sorting and identifying things that do not begin with the sound of the given letter
- Picture reading activities, picture stories, rhymes and many other activities to engage the learner in the teaching-learning process
KEY FEATURES

- Introduction to writing the beginning and ending sounds in words to initiate phonetic recognition of various vowels and sound groups
- Using vowel sounds in words
- Introduction of each phonetic word family through words that begin with the vowel sound, words with each word family in alphabetical order, words with different sound of the vowel in a separate box, reading and writing of selected words, matching words and naming pictures for recapitulation followed by dictation for developing listening and writing skills and introduction to reading of phrases and short sentences
- Various exercises for practice of rhyming words to improve phonological skills
- Introduction to basic grammatical concepts like use of ‘a’ and ‘an’, action words, opposites and pronouns
- Fun activities like crosswords interspersed in the book to improve vocabulary, reasoning skills and spellings
- Introduction to 4-letter words and some simple words often used by the children as a part of active vocabulary
- Reading short passages, comprehending them and answering objective questions based on them
- Completing stories by filling words
- Reading and comprehending short picture stories
Corals: An Integrated Term Book Series

Corals Pre-Primary is a set of six books designed to take care of all the curricular needs of the learners for each term. The series provides educators with detailed guidelines to enhance preschoolers’ learning experience. Each book includes three subjects: English, Mathematics and Environmental Studies.

**KEY FEATURES**

- Equips the learners with skills required for higher levels
- Provides tools to the educators to facilitate preschoolers’ learning experience
- Meticulously prepared curriculum, divided into 30 weeks’ teaching plan for educator’s convenience
- Carefully graded stepwise exercises to build on what has been taught earlier
- Features like rhymes, picture reading and picture stories included to engage the learner
- Letter formation, sound recognition, pre-mathematical concepts and many other concepts introduced in a learner-friendly manner, complete with recapitulation exercises to reinforce learning

An authoritative and contemporary English language course

The new edition of Viva *Real English* is a comprehensive learning package of language skills that also includes smart digital learning aids.

**KEY FEATURES**

- **Print**
  - Coursebook
  - Workbook
  - Supplementary reader
  - Teacher’s guide

- **Digital**
  - Real English Android & iOS App
  - Animated lessons
  - Audio for listening practicer
  - E-book
  - Printable worksheets
  - Online support at vivadigital.in
  - Interactive modules
  - Test generator

Extensive Teacher Support—Power to the Teacher

- animations of every chapter
- animated e-book for the whiteboard
- test generator application
- detailed lesson plans & answer key
- ready-to-use worksheets for teachers
- online resources

Android and iOS apps

[www.vivadigital.in](http://www.vivadigital.in)
Workbooks

The *Real English* workbook aims to reinforce through practice the language concepts taught in the coursebook. It includes:

- **Vocabulary builders** that expand on the contextual, thematic, formal and general vocabulary exercises in the coursebook
- **Grammar practice** that enhances the structural understanding of language and makes learners deft with grammar
- **Interesting writing tasks** that not only make writing fluent and reference skills sharp but also stimulate inquisitiveness and creativity
- The ‘English for Life’ approach emphasizing the practical, everyday use of language, going across curricula

Supplementary Readers

The role of the supplementary readers in the course needs special emphasis. The learner’s mind grasps the structures, flow and rhythm of a language through exposure to various forms of writing. The supplementary readers familiarize learners with the world of literature, guiding and enabling them to explore it on their own. The features of the readers include:

- **A rich selection** of traditional, classic and contemporary literature
- **A variety** of genres like short stories, excerpts from novels, plays and poems
- **Pluralistic** and **representative** of cultures at home and abroad
- **Comprehension** tests, tasks to encourage **literary appreciation** and interesting **activities**
- **Emphasis on the interest factor** and **experiential value**

Online Support

The *Real English* section on vivadigital.in seeks to extend the learning process beyond the printed book by providing a whole range of supplementary learning material online. The website offers:

- **Printable worksheets** for various levels of learners for classroom use and practice at home
- **Teacher’s resources** including answer keys and other teaching aids

Real English Digital

The *Real English* Digital interactive multimedia CD contains:

- **Audio components** of the listening tasks in the coursebook
- **Printable worksheets** for classroom use and practice at home
- **Interactive sessions** for practice in comprehension, vocabulary and grammar

The Real English App

The *Real English* app for Android, iOS and the web is an engaging learning tool. With rich multimedia and smart interactivity, it is the must-have digital component of this prime English language course.
Power to the Teacher

The Teacher’s Resource Pack for Real English equips the educator with the most practical and effective methods and tools for language instruction.

Answer key to the exercises in the coursebook, workbook and supplementary reader; answer key to the summative assessment test papers; transcripts for the listening tasks

Detailed lesson plans giving complete guidance on the classroom exploitation of the reading text, comprehension questions, vocabulary, listening and speaking tasks, sounds and pronunciation exercises, grammar, writing and activities

Ready-to-use worksheets exclusively for teachers in a photocopiable format. These are equally suitable both for classroom practice and as homework.

IN THE TEACHER’S HANDBOOK

E-book version of the coursebook for both the PC and the whiteboard

Vivid and captivating animations of all the lessons in the coursebook

Audio tracks for listening

Test generator application that helps teachers to create fully customized test papers

9789387486638 | Real English Supplementary Reader - 8
The imperative need for proficiency in the English language can be fulfilled at the school level through a well-graded, integrated language course. Designed according to the latest CISCE curriculum, Reflections is intended to help young learners develop essential language skills through a holistic exposure to various literary genres with a vast array of themes.

Key features:

- Reading texts
  - Wide variety of themes
  - Literature from across the world
  - Special focus on Indian and modern literature
  - Comic strips in classes 1–5
  - Texts from Shakespeare in classes 6–8
- Colourful and captivating illustrations
- Comprehension questions to boost critical thinking
- In-text questions in classes 6–8
- Literary appreciation for poems
- Identification of sounds and pronunciation
- Vocabulary and grammar
  - Thoroughly graded
  - Clear and simple definitions
  - Constructive and engaging exercises
- Listening and speaking
  - Enough practice for speech patterns
  - Rich audio resources
  - Focus on problem areas
- Creative exercises
  - Thorough guidance on creative writing
  - Interesting project works

The Package:

- Coursebooks 1–8
- Interactive Student CD
- Animated Lessons
- Teacher’s Handbook
- Online Support
- Android & iOS Apps

Follows the latest CISCE Curriculum

**Everyday English Grammar and Composition**

*Everyday English Grammar and Composition* is a clear and concise grammar series designed for young English-language learners. Each book in the series integrates basic grammar structures, vocabulary building, comprehension and creative writing skills. *Everyday English Grammar and Composition* provides a unique approach to learning, practising and enhancing language skills.

**KEY FEATURES**

- Comprehensive coverage of grammar
- Comprehension, vocabulary and writing lessons to complement the grammar syllabus
- Well-graded
- Learner friendly
- Colourful, attractive layout
- A wide range of practice tasks and exercises
- Clear instructions
- Online support
- Extra worksheets for practice
- Glossary of grammar terms

**ALL IN ONE**

- Vocabulary enrichment
- Comprehension & composition
- Creative writing
- Puzzles, word searches & games
- Well-graded exercises

**Download study material from** www.vivadigital.in

**For Classes 1 to 8**

**3 Test papers in each book**

Read the following sentences aloud:

Lucy is wearing a red T-shirt. Lucy is playing with her ball. Lucy’s dog is also playing with Lucy.

Lucy is wearing a red T-shirt. She is playing with her ball. Her dog is also playing with her.

Now read the following pairs of sentences.

1. Vicky is my friend.
   He likes bananas.
   In the second sentence, he stands for Vicky.

2. Meena is a girl.
   She is ten years old.
   In the second sentence, she stands for Meena.

3. Kitty is a cat.
   It is sleeping in the basket.
   In the second sentence, it stands for the cat.

In the above sentences, instead of repeating the same naming words, we replaced them by he, she and it. These words are called pronouns.

Pronouns are the words we use in place of naming words (nouns).

Glossary of grammar terms for quick reference

Colourful and visually attractive organization

Grammar games to make learning enjoyable and to promote listening and speaking skills

Worksheet pages for extra practice

Comprehension passages to break monotony

Glossary of grammar terms for quick reference

Colourful illustrations

English Language Teaching
Viva Smart Score is an indispensable portfolio of practice material for every student aiming to excel in school and board exams. Exhaustive in its coverage of the curriculum and comprehensive in skill integration, Viva Smart Score offers the best resources for both learning and practice through assignments, practice modules and tests. Its content is developed to suit both classroom use and self-study. This rigorously researched and thoughtfully designed compendium is the ultimate aid for impressive test performance.

**KEY FEATURES**

- Follows the Latest CBSE Curriculum
- Classroom, Homework and Practice Assignments
- 10 modules: Reading, Writing (X4), Literature, Grammar Concepts, Grammar Integrated, Subject Enrichment, Practice Tests
- 18 Practice Tests and Papers: Pre-mid-term, Mid-term and Post-mid-term
- Subject Enrichment (Listening and Speaking)

Read Now: Reading Comprehension and Language Skills

Read Now is a series of graded readers for children of classes 1 to 8. The texts in these books are specially selected to arouse, maintain and satisfy the interest of the children. This interest helps them overcome difficulties in comprehension and the unfamiliarity of syntactic structures.

KEY FEATURES

- An international favourite for over three decades
- The new edition is specially adapted for South Asia
- Includes fables, legends, folk tales, short stories, extracts from classics and select non-fiction
- Develops interest in reading
- Strengthens comprehension and Higher Order Thinking Skills
- Colourful and richly illustrated

The annotated critical editions in the Viva Classics series are specially designed for student readers. They help young readers appreciate and enjoy classic works of literature and also assist in studying these books as long reading texts prescribed in the CBSE curriculum. The texts are enriched with historical and other background information besides detailed textual explanation. The aesthetic design and imaginative artwork will make each book an instant favourite. Aimed to promote reading and meet curricular requirements, Viva Classics are also great additions to every home library.

**KEY FEATURES**

- A detailed AUTHOR BIOGRAPHY
- CRITICAL INTRODUCTION for a wider social and cultural perspective
- Insightful commentary, background information, thinking points and logical puzzles in UNDERSTAND, THINK, SOLVE and EXPLORE
- BEFORE WE BEGIN: Pre-reading questions and activities to rouse the reader’s interest
- GLOSSARY: Meanings of archaic or difficult words in the form of annotations
- CHAPTER SUMMARY: A recap of each chapter in simple language
- UNDERSTANDING THE TEXT: Fact-based and inferential questions for assessment
- ACTIVITIES: Research questions to learn and explore beyond the text
- PICTURE STORY: A graphic summary of the novel

**KEY FEATURES**

- Practise methods of increasing vocabulary
- Recognize certain basic root words
- Correctly use words that have multiple definitions and meanings
- Identify and use homonyms, synonyms, and antonyms
- Change singular words into plural words
- Identify and use unusual plural words
- Develop an ongoing interest in learning and using new words
Mathematics is a challenging and rewarding subject, provided one adopts the right approach to understand it. It motivates us to seek new boundaries and charge our thought process for development of thinking and reasoning skills. The series Start Up Mathematics for introductory to class 5 has been designed keeping this in mind. The series conforms to the latest NCF guidelines with careful grading of interdisciplinary and thematic linkages.

Teacher’s Resource Pack

- Teacher’s guide
  - Comprehensive lesson plan
  - Solutions of selected questions
  - Worksheets

- Online support
  - Flip book
  - Solutions of selected questions
  - Worksheets
  - Test generator

KEY FEATURES

- Based on the latest NCF guidelines
- Carefully graded content
- Concepts introduced through conversations, stories or examples
- Exercises given after every topic within each lesson
- Important points and tips included in Remember and Quick Tip
- Plenty of exercises at the end of every lesson
- Questions based on Thinking Skills
- Selected Questions from NCERT textbook
- Various concept-based Activities and Worksheets
- Evaluation done through Let’s Review and Assessment Sheets
Concepts introduced through conversations, stories or examples

Exercises given at the end of the chapter for reviewing the concept

Concept-based activities to encourage learning by doing

Exercises given after every concept in each lesson

Assessment sheets for evaluation

Selected questions from NCERT textbook

Start Up Mathematics is a sincere effort to meet the expectations of students and teachers. The books are carefully structured in their content and concepts with a large number of problems with varying levels of difficulty. The simple style of writing and the evolution of concepts is done keeping in mind the National Curriculum Framework developed by the NCERT. Through these books, students learn by experimenting in the laboratory, playing mathematical games and solving quizzes and puzzles. They will also learn to justify, reason, analyse and then evaluate.

**KEY FEATURES**

- Emphasis on concept clarity
- Solutions to some difficult NCERT questions given as examples
- Ample solved examples given for easy understanding of concepts and quick reference
- A variety of exercises given including MCQs, Solve Mentally and Let’s Evaluate containing objective and subjective questions
- Activities as per the CBSE guidelines integrated throughout the book
- Group and pair tasks and projects from real-life applications given
- Reinforcement of concepts done through graded problems in the exercises
- Important results given in Remember boxes
- At a Glance given at the end of each chapter for quick revision

**Teacher’s Resource Pack**

Practice Questions for Problem-Based Learning
ICSE Mathematics is a sincere effort to meet the expectations of the students and teachers. It aims to help the students gain knowledge of terms, concepts, symbols and methods, and apply them while solving the exercises. The books conform to the latest CISCE curriculum. All the concepts given in the books have been clearly explained with the help of examples. The chapters contain various in-text exercises covering all the concepts taught followed by review exercises and progress worksheets. A variety of activities are given to strengthen the knowledge of concepts learnt by the students.

KEY FEATURES

- Solved Examples included as per the difficulty levels to strengthen the understanding of the concepts
- In-Text Exercises given after a few concept in each chapter
- Exercises for reviewing the concepts given at the end of each chapter
- Various concept based Activities integrated throughout the book
- Progress Worksheets given at the end of each chapter to evaluate the knowledge and understanding of the concepts learnt
- Values and Life Skills including questions based on values and life skills to develop interpersonal skills
- Attempt and Score including question bank given at the end of the book
- Integrate Your Learning including questions to form links with other subjects
- Maths Fun including game given in the inner back cover of the book to make learning fun

**Speed Maths**

*Speed Maths* is the maths we do in our heads without the use of calculator and without writing down the calculation. There are many ways of finding the answer to any Mental Maths problem, and such ‘tricks’ are the focus of this series. Mental Maths has become more important than ever and new primary maths syllabuses are reflecting this. All books in the series are framed according to the guidelines of the NCERT.

---

**Key Features**

- Appropriate number of units to comply with each level
- Each unit has four sets of carefully graded questions to reinforce and consolidate important concepts and skills
- Ideal for revision, homework, consolidation and enrichment
- Appropriately graded questions written in each lesson
- Clearly and attractively set out books with hundreds of diagrams, graphs and illustrations
- Designed in four colour

Strategy fun pages given to motivate and challenge children to solve problems that relate to their everyday world.
NCERT Practice Workbooks Mathematics for Classes 1 to 5 have been developed in accordance with the latest NCERT syllabus. The contents presented in these books not only help to understand the concepts described and discussed in the main textbook, but also reinforce the concepts already learnt by their target readers. Each of these workbooks is presented in an effective format, so that students may revise, understand, and self-evaluate through practice exercise.

**KEY FEATURES**

- Carefully graded contents as per the syllabus
- Concepts and definitions presented in quick revision format include basic mathematics rules
- Solved examples with detailed explanation of each step (wherever required)
- Practice exercise at the end of each chapter including ‘Fill in the blanks’, ‘Match the columns’ and many other question types
- By doing practice exercise students can check their level of understanding at each stage of their preparation with the aid of many references
- Answers (with hints of some selected questions) to all questions in the practice exercise

परिवेश : हिंदी पाठमाला

परिवेश हिंदी पाठमाला प्रवेशिका स्तर से आठवीं कक्षा तक के लिए है। यह पुस्तक भूखेला एन.सी.ई.आर.टी.,
विभिन्न बोहों द्वारा स्वीकृत पाठ्यक्रम तथा सी.एम.ई.के.की नई शिक्षा प्रणाली पर आधारित है।

विशेषताएं
- प्रवेशिका, भाग 1 और 2 में आकर्षक चित्रों द्वारा वर्णमाला और
  मात्राओं का ज्ञान
- भाग 2 से 5 में प्रवेश पाठ से पहले ‘पाठ के उद्देश्य’
- अपरिचित गद्यांश और अपरिचित पद्यांशों का समावेश
- भाग 3 से 8 में शब्दकोश का प्रयोग
- पाठ्यपुस्तक एवं अभ्यास पुस्तिका का मिश्रित रूप
- अभ्यास-पत्रों एवं परीक्षा-पत्रों का समावेश
- सरल, सुविधा तथा भावपूर्ण भाषा-शैली का प्रयोग
- बच्चों के मानसिक स्तर के अनुसार पाठों एवं कविताओं का चयन
- विभिन्न साहित्यिक विधाओं से संबंधित पाठ

अभ्यास में विविधता एवं मौलिकता
अविरल हिंदी पाठमाला प्रवेशिका स्तर से आठवीं कक्षा तक के लिए है। यह पुस्तक शुरूआती तक व आधुनिक शिक्षण विधियों के अनुसार तैयार की गई है। इस पाठमाला में हमारा उद्देश्य रहा है कि बच्चे हिंदी लिखने और बोलने के साथ-साथ रचनात्मक अभिव्यक्ति के लिए भी प्रेरित हों।

विशेषताएँ

- नई राष्ट्रीय शिक्षा नीति के अनुसार पाठ्य पुस्तकों का चयन
- मानव संसाधन विकास मंत्रालय भारत सरकार द्वारा निर्देशित मानक नर्तकी का प्रयोग
- सरल, सुंदर तथा भावपूर्ण भाषा-शैली का प्रयोग
- विभिन्न साहित्यिक विधियों से संबंधित पाठ
- सुंदर, सजीव चित्र और नवीन रचनात्मक गतिविधियों का समावेश
- भाग 1 से 5 तक पाठ्यपुस्तक तथा पाठ्यपुस्तक का अनुसूची मिश्रित रूप
- विभिन्न अभ्यास द्वारा विद्यार्थियों की निरंतर प्रगति का आकर्षण
- अभ्यास-पत्रों तथा परीक्षा-पत्रों का समावेश
लूक इंसाइड
आपको कविता बनाएं: कविता लिखना-सिखना का अनूठा प्रयोग

Activity-oriented approach to learning

Margin comments consisting of word meanings, Key Facts, Mind Scramblers, Classroom Discussions (based on Thinking Skills) and Do You Know

In-text questions in the form of Answer Orally

Practice questions for Science Olympiad at the end of each book
Viva Start Up Science Workbooks have been specially prepared for the students of classes 6, 7, and 8. They complement the textbooks to help students prepare for evaluation and for additional practice and self-assessment.

**KEY FEATURES**

- Each chapter begins with a summary given in points for quick review.
- A variety of objective questions like multiple choice, fill in the blanks, match the following and one word answer are included.
- Subjective exercises like correct the false statements, give reasons, find the odd one out and justify, define, differentiate, and short and long answers are incorporated in the books.
- Questions based on Higher Order Thinking Skills, diagrams and numericals are also given.
- A variety of multiple choice questions based on practical skills are also included.
- A separate section on laboratory including common laboratory apparatus and general guidelines and precautions is given in the beginning.
- Sample test papers are incorporated.
- Adequate space has been given to answer the objective-type questions while the subjective questions have to be answered in the notebooks.

- Questions based on thinking skills given in Apply Your Learning to develop critical thinking in students and to assess their application of knowledge gained
- Life Skills based questions given to develop interpersonal skills in students
- Integrate Your Learning section, a correlation-based approach to help students create links between different subjects
- Engaging and interesting activities given in the section Projects and Activities
- Review Your Learning given at the end of each chapter to assess the conceptual knowledge of students
- Attempt and Score provided as an assessment tool to assess the overall knowledge of the students
- Logical Thinking questions given to enhance logical and critical thinking
Various activities interspersed throughout the text to aid learning

A number of exercises interspersed throughout the text in ‘Stop and Reflect’ section given to recall the concepts learnt

Extra information given in separate boxes

Extra information relevant to the concept provided in ‘Enlighten Your Mind’

‘Review Your Learning’– an assessment sheet provided to help students to check their understanding of the text

‘Ask and Learn’ section providing a valuable learning activity to encourage students frame and ask questions in class
KEY FEATURES

- Conceptual skeleton of each chapter represented through Key Concepts
- Margin comments consisting of meanings of difficult words, extra information relevant to the concepts in Thirst for Knowledge and thought-provoking questions in Thinking Fountain
- Terms to Know and Summary given at the end of each chapter to consolidate important definitions and the concepts learnt
- Take a Break! section containing objective assessment exercises interspersed in the text to recall and review the concepts learnt
- Various assessment tools included in Exercises to reinforce the concepts learnt in the chapter
- Picture-based questions included in the section Observe and Perform to develop the observational skills in students
- Questions based on thinking skills given in Apply Your Learning to develop critical thinking in students and to assess their application of knowledge gained
- Life Skills based questions given to develop interpersonal skills in students
- Integrate Your Learning section, a correlation-based approach to help students create links between different subjects
- Engaging and interesting activities given in the section Projects and Activities to nurture and develop scientific skills
- Review Your Learning given at the end of each chapter to assess the conceptual knowledge of students
- Attempt and Score provided as an assessment tool to assess the overall knowledge of the students
- Logical Thinking questions given to enhance logical and critical thinking
Critical thinking questions given at the end of the book to enhance logic and observational skills in the section ‘Logical Thinking’

‘Apply Your Learning’–Thought-provoking questions to assess the application of knowledge and enhance thinking skills in students

‘Integrate Your Learning’–A correlation-based approach to help students create links between different subjects

‘Observe and Perform’–Picture-based questions to enhance the observational skills in students

‘Life Skills’–Questions based on life skills and values to build interpersonal skills such as creative thinking, problem-solving, and teamwork in students

A variety of objective and subjective exercises, projects and activities at the end of each chapter

Interesting and engaging activities given in the section ‘Projects and Activities’

In-text exercises in ‘Take a Break’ section to assess the concepts learnt in the chapter

Extra information relevant to the concepts provided in ‘Thirst for Knowledge’

Viva Science Workbooks VI–VIII is a series of science workbooks strictly based on the contents of NCERT textbooks prescribed at the middle school level. This series has been developed to help students do a systematic practice of subject content with equal support in terms of classroom learning and what they study in textbooks. The practice material has been presented in an easy-to-understand and concise manner. A variety of questions have been included in each book to provide a comprehensive revision of the entire syllabus.

**KEY FEATURES**

- SUMMARY in the beginning of each chapter, to provide a gist of what all the chapter covers in the Main Course Book (MCB)
- AMAZING FACT, a boxed feature in each chapter containing some interesting and useful fact relevant to the chapter
- KEYWORDS in each chapter including a glossary of terms used in the chapter as discussed in the MCB, with their meanings
- NCERT TEXTBOOK QUESTIONS, including ‘in-text questions’ and ‘chapter-end questions’ given in each chapter
- EXTRA QUESTIONS FOR PRACTICE in each chapter created in conformity with the syllabus to help students sharpen their practice skills and assess their preparation level
- Contents designed with a sound understanding of the basic requirements of the target readers
- Attractive and smooth style of presentation in an easily intelligible language
- Periodic Tests are provided as are assessment tool to assess the conceptual knowledge of the students

Social Studies is a set of five books for classes 1 to 5, designed and developed on the basis of the guidelines given by the CBSE. It has been a conscious endeavour to keep the text to a minimum particularly in classes 1 and 2. It is an activity-oriented series with creatively designed exercises and activities.

**KEY FEATURES**

- Language is kept simple, keeping the level of the students in mind.
- Concepts are integrated under sub-headings and are taught and reinforced through illustrations, pictures, activities and flow charts.
- Chapter-end exercises and activities test the analytical, logical, cognitive, social, emotional and various other skills of the children.
- **Brain Teasers** in books 1 and 2 enhance thinking skills.
- **Do you know?** gives additional interesting information related to the text.
- **Find Out, Try This and Activities** keep the children interested in the subject and make them inquisitive.
- **For the Teacher** helps a teacher to enhance the skills of the children.
- **Now I Can Answer** presents a variety of exercises like Fill in the Blanks, Answer in One Word, Match the Columns and many more.
- Assessment Sheets given in the middle and at the end of each book can be used for evaluation.

Separate activities given for assessment

Concepts taught and reinforced through pictures and illustrations

A large variety of exercises included
The *Social Studies* series for classes 6–8 has been created following the CBSE guidelines and the NCERT syllabus. The series provides detailed insight into the required matter with additional features for facilitating complete learning. Carefully designed Teacher’s Resources help the educators in enhancing students’ learning experience.

**Teacher’s guide**
- Detailed Lesson Plans
- Answers to In-text and Chapter-end Exercises
- Additional Activities and Projects
- Solved Maps
- Assessment Sheets

**Teacher’s Digital Resources**
- E-Book
- Test Generator
- Printable Maps
- Printable Worksheets along with Answers
- Printable Assessment Sheets
- Lesson Plan Template

**KEY FEATURES**
- Designed according to the latest CBSE guidelines and NCERT syllabus
- Ample variety of exercises given for Assessments in in-text and chapter-end exercises
- Sections like Extract, Search and Surf, Answer Orally, Brainstorm, Footnotes, Picture-Based question and Meanwhile not only maintain the interest of the learner, but also provide opportunities of evaluation to the teacher
- Certain chapters have been provided with additional features like web charts, match the following, give one or few words for the following, differentiate between terms and short notes
- Questions based on thinking skills included in various sections of the book
- Selected NCERT textbook questions given for practice in each book
- Carefully created Teacher’s Resource Pack provided which comprises of Teacher’s Guide and Digital Resources
Learning Outcomes: a quick outline of the main topics

Extract: articles related to the chapter with questions based on them

Fact File: additional information

Brainstorm: extra questions related to the text for analysis of information

Search and Surf: tools for research and self assessment

Picture-based question: visual quiz to encourage and develop research skills

Meanwhile (in History): traces the contemporary scenario related to the chapter discussed

RECAP: a memory tool providing the salient points covered in the text

ICSE Social Studies is a series of three books for classes 3 to 5, developed completely in adherence to the CISCE curriculum, released in November 2016. The learners are introduced to various aspects and concerns of the present times through a wide range of content drawn from the disciplines of History, Geography and Civics. The series aspires to inculcate a sense of appreciation for our past heritage, understand the changes that have taken place in governance, and to have a better understanding of the world and the pressing environmental concerns.

**KEY FEATURES**

- **What we will learn**: states the learning objectives
- **Warm Up**: a lead-in task or discussion that is connected to the topic to be discussed
- **Let’s Do**: activities for a quick assessment of the topic discussed
- **Let’s Discuss**: questions for discussions to gauge whether the topic has been grasped
- **Fact Corner**: information based on the topic but beyond the syllabus presented in boxes
- **Now I Know**: recapitulation of all the important topics covered in the chapter
- **Exercises**: varied types of questions ranging from choosing the right option, gap fills, completing web charts, brief answers, comparisons, citing differences to picture description
- **Life Skills**: topics integrating various skills as delineated in the syllabus
- **Creative Corner**: activities to aid the learners to express the concepts learnt creatively
- **Beyond Textbook**: integrates activities to reinforce the topic learnt while connecting it with other subjects
- Relevant words connected to the topic glossed in each chapter

**Follows the latest CISCE Curriculum**

Viva History & Civics is divided into two portions. The History portion equips the learners with the knowledge and understanding of the past to help them link it to the present while the Civics portion familiarises them with the socio-political life.

Viva ICSE Geography aims at enabling the learners to appreciate and understand the earth and the habitat of humans and other life forms on it. It also familiarises them with their own region, makes them understand how interdependent we are from local to the global level and to study the developments of one region in relation to other parts of the world.

KEY FEATURES

- Lessons are presented in an engaging and easy-to-understand language.
- Appropriate pictures, photographs and maps are given to make the concepts clearer.
- Difficult words are glossed for convenience and ease of learning.
- Timelines of the chronology of events are given as a ready reckoner in History.
- Exercises and activities are embedded in each chapter to make learning more meaningful.
- Information based on the topic but beyond the syllabus is presented in boxes as Fact Corner.
- Let’s Recall recapitulates all the important topics covered in the chapter.
- Let’s Learn includes a variety of chapter-end exercises.
- Let’s Do covers classroom activities and projects to be done independently to encourage critical thinking and application of the concepts learnt.
- Values and Life Skills in History integrates various subjects as delineated in the syllabus.

Environmental Studies is a carefully graded set of 5 books. It strictly follows the NCF guidelines and the NCERT syllabus. Efforts have been made to keep text to a minimum and there is use of a plethora of illustrations to emphasize learning through visual stimulation. The books aim to gently train children to see the harmony between society and environment. All efforts have been made to expose the child to the physical world and its natural and man-made components. The larger goal of the series is to sensitize children to their social environment and their responsibilities towards it.

**KEY FEATURES**

- Bright, colourful and child-friendly illustrations
- *Answer Orally* for quick recapitulation
- Factoids in *Fact Ant* to increase general knowledge
- Nuggets of wisdom in *Grandma says...* to make children aware and responsible
- A variety of questions in the exercises for reinforcement of concepts
- Plenty of knowledge-testing projects and activities in *Activity Time*
- Sample test paper as *Let's Revise* after every unit
- Comprehensive Teacher’s Resources which comprise of Answer key and Digital Resources

Computer Dot Com is a series of 10 books for classes 1 to 10. The series is based on the guidelines introduced by CBSE as well as the syllabi of other major boards of education. The books are based on Windows 10 and Microsoft Office 2016. All the latest facts, figures and programs are included in the books.

- Books 1 and 2 include basic computer technology and information about various parts of a computer. The books help students learn to handle the keyboard and mouse through specially designed activities. Paint program is introduced at this level to help students acquire keyboard and mouse skills.

- Books 3 to 10 have been extensively revised covering the applications of Scratch, Flash, Photoshop, QBASIC, Internet, E-mail, HTML and JAVA in respective classes.

**KEY FEATURES**

- Familiarizes children with practical applications of computer
- Concepts introduced in a step-by-step manner to help students acquire basic computing skills
- Activity-oriented approach with creatively designed exercises and activities
- A wide range of lab activities and projects given to enhance practical skills and application of knowledge gained
- Interactive Learning App provided for students
Thought-provoking questions to assess the application of knowledge and enhance thinking skills in students are given in ‘Apply Your Knowledge’ section.

‘We will Learn About’ at the beginning of the chapter including a list of topics to be learnt.

‘Computer Fun’ bringing forth various activities and projects to strengthen the understanding of concepts.

‘In the Lab’ section including interesting lab activities to assess the application of concepts.

Warm up activity given at the beginning of the chapter to assess the previous learning of concepts.

Think-IT is a series of 8 books for classes 1 to 8. The series is based on the guidelines introduced by CBSE as well as the syllabi of other major boards of education. The books are based on Linux and Libre Office. All the latest facts, figures and programs are included in the books.

The books encourage the use of Free and Open Source Software (FOSS). Anyone can use and modify the software according to the requirement. It has an advantage over proprietary software since it does not hold a copyright and comes with an open license. Other benefits of FOSS include increased security and stability, piracy control and privacy protection.

**KEY FEATURES**

- **Familiarizes children with practical applications of computer**
- **Concepts introduced in a step-by-step manner to help students acquire basic computing skills**
- **Activity-oriented approach with creatively designed exercises and activities**
- **A wide range of lab activities and projects given to enhance practical skills and application of knowledge gained**

ICSE Computer Studies is a series of 8 books for classes 1 to 8. The books are based on the CISCE curriculum. The curriculum aims to provide students with opportunities to use modern technology thus enhancing their learning in all subjects. It also enables them to use technology, and develop and express their ideas through Information and Communication Technology (ICT) at a level suitable for the future workplace. The curriculum helps them become active participants in the digital world.

The books are based on Windows 10 and Microsoft Office 2016. They cover the basics of Computer Science with applications of Microsoft Office package and Scratch program. They also cover the applications of Internet, HTML, Program Coding, App Development and Networks.

**English (Classes 1 to 5)**

**Comprehension:** Recall, Analysis, Comparing, Inference, Evaluation

**Activities:** Games to enhance language skills, beyond-the-text activities and much more . . .

**Vocabulary:** Contextual, formal and general

**Grammar:** Comprehensive, simple, jargon-free

**Fun Time:** Interesting activities and projects

**Writing:** Paragraphs, stories, poems, essays, letters, e-mail, invitations, lists, instructions and much more...

**Listening:** Listening for specific and general information, sounds, structures, etc.

**Speaking:** Focus on correct pronunciation, simplified phonetics, simple guidelines on how to pronounce

**Assessment Sheet:** Exercises for term-end evaluation

**Vocabulary and Grammar Worksheets:** Exercises to assess the concepts learnt

---

**Mathematics (Classes 1 to 5)**

**Remember Boxes:** Important points and tips

**Answer Orally:** Oral questions

**Exercises:** In-text and chapter-end exercises

**Riddle Time:** Questions based on thinking skills

**Little Genius:** Questions based on thinking skills

**My Activity Corner:** Interesting Maths lab activities

**Assessment Sheet:** Exercises for term-end evaluation

---

**Environmental Studies (Classes 1 and 2)**

**Granny’s words...:** Nuggets of wisdom

**Fact Ant:** Interesting facts

**Exercise Time:** Chapter-end exercises

**Activity Time:** Projects and activities included

**Anya wants to know...:** Questions based on thinking skills

**Assessment Sheet:** Exercises for term-end evaluation
Quick Recall: Oral questions to reinforce the concepts learnt

Accept Challenge!: Questions based on thinking skills

Exercise Time: A variety of exercises like MCQs, true or false, fill ups, matching and answer the following

Brain Teaser: Questions to review the concepts learnt

Projects and Activities: Experiments, data collection and handling, surveys, presentations, projects, organising campaigns, etc.

Leisure Time: Activities including unscramble, odd one out, crossword puzzle, web charts and word search

Assessment Sheet: Exercises for term-end evaluation

Social Studies (Classes 3 to 5)

Exercise Time: A variety of exercises in the form of complete the following web charts, fill in the blanks, one word questions, etc.

Try This: Activities to reinforce the concepts learnt

Give reasons: Questions based on thinking skills

Do You Know?: Additional interesting information related to the text

Let’s Recall: Key concepts at the end of each lesson

Activity Corner: Activities to develop the soft skills and talents of students in a practical manner

Assessment Sheet: Exercises to enhance the understanding of the text

General Knowledge (Classes 1 to 5)

- Interesting nuggets of information
- Comprehensive coverage of topics
- Artistically designed pages and fully pictorial
- Unconventional and experimental topics
- Well-researched and authentic lessons

Value Education

Values are our private principles, the result of individual personality and experiences. Parents, teachers and one’s peer group shape individual values. These values determine the differing reactions of people to similar events. Value Education, a series of eight books for primary classes, aims at inculcating values that can help children sift and control information and make wise choices in a given situation. It also focuses on the development of various aspects of a child’s personality like physical traits, intellectual qualities, attitude, behaviour pattern and others.

For Classes 1 to 8

- It is based on the latest National Curriculum Framework for School Education developed by the NCERT
- Lessons are given in various forms like stories, real-life incidents, comic strips and poems
- Each lesson begins with a quote or a saying pertaining to the value
- Question Time includes questions based on the lesson
- Time to Think encourages class discussion on the theme of the lesson
- Time for a Reality Check links the values to real-life situations
- Diary Time gives an opportunity to the child for self-expression
- Put Together includes an activity to enable children to learn the value through fun and games
- Be Smart, Be Good is a separate section in books 1–5 that includes tips for personality development

KEY FEATURES

- Detailed Lesson Plans
- Answer Key
- Suggested Starter Activities
- Additional Projects and Activities

Teacher’s guide

- E-book
- Interactive Worksheets
- Interactive Value Tree
- Golden Tales to Cherish
- Quick Quiz

Teacher’s CD

- Answer Key
- Worksheets

Online support

Teacher’s Resource Pack
A variety of text in the form of stories, comic strips, poems and much more

The lessons begin with a quote linked with the value

Begins with a thought-provoking question or discussion

Lots of exercises to promote class discussions and provide opportunities for self-expression

A guide to good manners and personality development

In middle and upper primary, it can be hard to find the time to give handwriting the attention it deserves. But these are very important years for consolidation of handwriting. During this time, students need support as they revise, practise and consolidate the joining skills necessary for writing in cursive, increase their fluency and legibility, and begin to develop their own personal style.

**KEY FEATURES**

- Information on the mechanics of writing
- Specific teaching notes on all the different joins
- A troubleshooting chart to help you identify and remedy handwriting difficulties
- Fun and inviting books with uncluttered, attractive pages
- Designed in four colour

**ISBN** | **Title**

Write It Right is a series of five handwriting books based on recent research on handwriting practice. They are graded according to the development of motor skills and mental processing power in children at various ages. These are not just copy-and-write books but teach spelling, vocabulary and interesting facts about our environment.

**KEY FEATURES**

- Letter formation in cursive introduced in a step-by-step manner
- Focus on the development of fine motor skills essential for writing through adequate practice sessions
- Opportunity for children to assess their work, focus on their handwriting and eliminate problem areas
- Stress on good posture, appropriate pencil grip and proper paper position that are important for good handwriting
- Crosswords, jumbled words, word searches and other interesting activities included to make writing fun
- Information on the mechanics of writing
- Ideas for pre-writing warm-ups
- Pattern props and stories for demonstrating handwriting movement patterns
- Various tracing and independent writing activities
- Designed in four colour
Continuous self-assessment by the child through check your handwriting

Interesting theme-based activities interspersed to break the monotony of writing

Handy handwriting tips

The series of *Colours & Craft* has been specially designed by an experienced teacher, based on his classroom-tested practical knowledge. Each book contains both art and craft activities that encourage children to use their imagination and creativity effectively. The series is systematically graded to enable children to progress naturally from one level to the other.

**KEY FEATURES**

- Each craft activity includes a list of readily available materials.
- The directions are presented in a step-by-step format with illustrations included where necessary.
- Gives scope to the teacher to ask open-ended questions related to the activities and pictures. For example, “Tell me about your picture.” or “Where does a boat sail?” or “What part do you like the best?”, etc.
- A wide variety of activities included such as line drawing, pencil shading, join the dots, spray painting, scenery drawing and colouring, vegetable painting and many more.
A variety of techniques used for colouring supported by sample pictures

A number of interesting craft activities given with proper instructions

Step-by-step guide to paper folding activities given with relevant pictures

Colours & Craft for Classes 6 to 8 has been designed on the basis of the latest NCERT syllabus of arts education. It incorporates almost all the themes, mediums and techniques of art recommended for upper primary classes. Through this series children will learn to express themselves aesthetically. Along with learning the techniques of art, children will be motivated to develop creative perspective of the things around them. Children will also learn to observe and capture the form, details and essence of their surroundings in their art.

**KEY FEATURES**

- Elements of art explained in detail
- Appropriately graded according to the syllabus
- Art terms suitably explained
- Exposure to each medium of art and their outcomes
- Techniques of art explained step-by-step along with illustrations
- Individual creativity encouraged by ‘In your file’ projects
- Motivates observation of objects, plants, animals and human beings in detail, and as a part of the whole environment
- Encourages creative expression of observations in art
- Enlightens creativity through craft activities
- Includes craft ideas to encourage use of waste materials

Little Hands is a set of eight books for children of pre-primary and primary levels. The aim of these books is to enable the children to learn various art and craft techniques without the aid of an instructor. The essential drawing techniques progress from starting points of lines and simple shapes to more complex figures. The books focus on the development of art and craft skills. Children can use the skills taught here to go beyond the examples and create their own unique work. We hope that the books will inspire the children to realize their creative potential.

**Key Features**

- A perfect blend of art and craft
- Appropriately graded
- Factoids included wherever possible
- Original art and craft ideas using waste material also given
- A list of readily available materials given with every craft activity
- Concise and clear instructions
- Directions presented in a step-by-step format wherever needed
- Sample illustrations given where necessary
- Ample variety of art and craft activities included using various drawing and colouring tools like, pencils, felt tip pens, water colours, pencil colours, different kinds of paints, crayons, oil pastels and many more

Viva Map Practice Book is a series of map exercise books for Classes 6–8, designed and developed completely in sync with the latest syllabus of CBSE. It has been brought out with a view to providing the target readers a thoroughly intelligible and relevant track to appraise their own level of preparedness to solve map-based queries that account for a significant bulk of questions on social science, asked in school examinations.

**Key Features**

- Neatly divided into the two key segments of Geography and History
- Broad, relevant and thoroughly informative content
- Each map exercise spread over two pages or split into two sections, with the first page/section containing useful information regarding the subject/theme of the map/diagram/illustration/picture
- The first page/section of each exercise has complete map/diagram/illustration/picture on which the exercise is based
- Each map given is properly scaled, authenticated and approved by the Survey of India
- A boxed feature titled ‘LEARN MORE...’ to give extra bit of information wherever required
- Special feature in the form of tables at the end of each book to give additional, interesting and useful information relating to some topics covered in the book

WHY THIS BOOK?
The idea of preparing such a supplementary study material popped up during interactions with teachers at seminars and workshops across the country. During such interactions, it was realised that the students of Class 8 and above face difficulties in writing formulae, chemical equations and more so in naming compounds and balancing chemical equations.

KEY FEATURES
FOR WHOM IS THIS BOOK?
The book, Chemical Communication, has been prepared for
- All the students who need or wish to study fundamentals of chemistry
- Those who did not have the opportunity to study chemistry during their formative schooling
- Those who have studied chemistry in their junior classes and wish to reinforce their basic knowledge and understanding of this all important language
- Teachers and parents with limited background of chemistry, but who are called on to teach the subject

Viva Physics for Class IX and Viva Physics for Class X have been developed as per the latest NCERT syllabus prescribed by the Central Board of Secondary Education (CBSE). The purpose of developing these books is to provide an understanding of the fundamental and basic concepts underlying the field of physics in a systematic manner and providing students a platform for further in-depth study of the subject. The books are enriched with a large number of features to develop a variety of skills in different learning situations.

**KEY FEATURES**

- The book has been prepared in accordance with the latest NCERT/CBSE syllabus and pattern
- The book has been written in an informal, interactive style supported by a large number of well-labelled illustrations, diagrams and solved examples
- Topic-wise Assignments
- NCERT Textbook (In-Text and Chapter-End) Questions
- NCERT Exemplar Questions are provided with solutions
- Higher Order Thinking Skills (HOTS) Questions
- Brain Strain helps students apply the facts and concepts learned
- Value-Based Questions
- Exam Practice Questions and Model Questions
- Periodic tests (To enable students make strong self-assessment)
- In-text pointwise summary
- Windows to the past developments in science at appropriate places in the book

Science is the study and knowledge of the natural world. This knowledge is gained by experimentation. Thus, “learning through experiments” becomes an integral part of all science courses. Verifying and/or reverifying theories by performing carefully planned experiments is interesting and highly satisfying to a young mind.

SCIENCE LAB SKILLS for Class IX and SCIENCE LAB SKILLS for Class X have been written strictly in accordance with the latest NCERT syllabus prescribed by the Central Board of Secondary Education (CBSE). The books have been prepared to provide a basic course in theExperimental Science to the students of secondary classes. The content of these books has been upgraded, enriched and tested over the last many years.

- Each Chapter is supported by a large number of Viva Voce Questions (with Answers) and Multiple Choice Questions (with Answers)
- Each Section (Physics, Chemistry and Biology) is closed with a set of Projects. The projects are innovative and aimed to stimulate students for scientific research
- An introduction on How to prepare a Project Report, helps a student to present his/her work in a more impressive, systematic and scientific way

Viva NUMERICAL PROBLEMS IN SCIENCE for Classes 9 & 10 provides beginners a large number of Numerical problems and will help them to develop problem-solving skills through a step-by-step approach illustrated in the examples. The follow-up problems that follow the examples reinforce the concepts and their applications.

The book deals with the concepts in detail, discussing all important aspects of the topic. Based on the latest CBSE syllabus. The main objective of this book is to help students to develop problem solving skills.

KEY FEATURES

- As per the latest CBSE syllabus
- Brief overview of important concepts at the beginning of each chapter
- A large number of solved numerical problems
- MCQs with answers after each topic
- Unsolved problems (with hints) for practice at the end of each chapter
- Selected questions from NCERT and different exam question papers are included

The Books Viva Mathematics, have been developed and designed to meet the needs of the students of classes IX-X studying under CBSE schools. We have presented the material in a very refreshing and simple style, keeping in view that it will cater to the needs of the students. Practice and more practice is the only way to truly master a subject like Mathematics. In keeping with this time-tested formula of faring well in Mathematics, these textbooks contain a large number of problems of all types. As the students work through the problems given in these books, they will be improving their mastery of the subject “Mathematics”. Moreover, we have tried to make these books as error-free as possible. Another significant aspect of these books is that all chapters in it have been developed in accordance with the latest syllabus and guidelines prescribed by the CBSE.

**KEY FEATURES**

- Each book provides scope for all categories of students.
- The concepts have been presented and explained in an impressive manner.
- Ample solved examples on each topic.
- Solved examples also includes selected NCERT questions, NCERT exemplar, Previous years’ questions.
- Separate section of HOTS questions in each chapter.
- Summary at the end of each chapter for quick revision.
- A Self Assessment Test in each chapter based on the latest examination pattern.

Viva Map Practice Book (History and Geography) for Classes IX and X are designed and developed according to the latest CBSE/NCERT syllabus and guidelines. Each of the books supplements the textbook prescribed for it, and aims to reinforce the geographical and historical concepts of the students. The two books fully cater to the needs of the students with plenty of map-based exercises, map-making skills, practice tasks, diagrams and illustrations. In addition, the books contain information on major aspects covered in History and Geography taught at the school level. These books will do more than just supplement the main textbooks. They will develop in students the ability to analyse, compare and contrast, which are integral to the study of History and Geography. In the two books, all the facts are actually and accurately presented as per the sources and all the location-specific facts have been incorporated on the basis of common coordinate system. The books aim to fulfil the needs of both teachers and students.

**KEY FEATURES**

- The series comprises two books including one each on History and Geography for Class IX and X.
- Each book contains broad, relevant and thoroughly informative content.
- The map tasks are spread over two sections, with the first section containing the main map or diagram with useful information regarding its theme.
- The other section has the outline map or diagram with exercise based on it.
- Each given map is properly scaled, authenticated and approved by the Survey of India.
- Additional information and exercise based on the theme are given in boxed features titled LEARN MORE... and GO AN EXTRA MILE.
